

Erarta Museum of Contemporary Art

Erarta is the largest private museum of contemporary art in Russia. Since the opening of its doors in 2010, Erarta's permanent collection has grown to include 2800 works by more than 300 artists from all across the country.

Erarta Museum was repeatedly mentioned as a top choice tourist attraction by the world's leading *Lonely Planet* guidebooks, ranks among the top 10 museums in Russia on TripAdvisor travel website, was spotlighted as one of the '5 cultural gems in St. Petersburg' by *National Geographic*, and became the country's first contemporary art museum to be featured on Google Art Project. Every year, Erarta attracts nearly half a million visitors.

Permanent Collection

The permanent collection display in the Museum Wing showcases the vast variety of contemporary visual arts from paintings to video art, as well as Erarta's unique signature projects. The idea behind every such project is to bridge the gap between contemporary art and the viewer.

The *U-Space* immersive installations project (the museum has a total of six) offers each visitor a unique emotional and mental experience: 10 minutes of another life spent inside each of these artistic spaces. Every immersive installation has its own theme manifested in each tiny detail, from lighting to smells.

The *Audio Installations* were designed to draw the viewer into the world of sometimes inscrutable expressive paintings. The project is an inspiring example of professional sound design.

The *Art-Literature* project is a way to engage the viewers in a dialogue by prompting them to describe their impressions of the museum visit in the form of a creative essay. This allows every Erarta visitor to share his or her insights with other guests.

Two Video Halls are used for screening short films created for the *Art-Animation* project and episodes of *The Adventures of BB Square* cartoon series. *Art-Animation* invites the viewer to join the game of locating certain artworks from the museum's permanent collection which inspired the animated films. It features films by professional and amateur animators alike – the final selection was based on an open competition. In addition, *The Adventures of BB Square* cartoon series created by Erarta is the only art education cartoon made in Russia. All twelve episodes can be viewed in the Video Hall or on the museum's YouTube channel.

Temporary Exhibitions

The museum's Exhibitions Wing is entirely dedicated to temporary shows: every year, Erarta stages more than 40 exhibitions alternately focusing on painting, sculpture, photography, fashion, design, architecture, and video art.

The museum collaborates with numerous Russian artists and introduces its guests to the most influential projects and names in the global art scene, from the much-talked-about *Undressed* exhibition presented by the London-based Victoria and Albert Museum to the star of contemporary Chinese art Liu Bolin. The capacity of the exhibition rooms is such that there is enough space even for such large-scale projects as *Lamborghini: Design Legends* featuring rare car models or the exhibition of monumental sculptures by Salvador Dalí.

The circle of prominent contemporaries closely associated with the museum extends far beyond the purely artistic community: band leaders and musicians Sergey Shnurov and Boris Grebenshikov, rooftopers Vadim Makhorov and Vitaliy Raskalov, film director Sergey Solovyev and animator Alexander Petrov were among those who presented their exhibition projects at Erarta.

Day at the Museum

It is possible to experience Erarta's permanent collection, all temporary exhibitions, and the museum's signature projects (with the exception of the U-Space total installations) with only one Regular Ticket available for 1250 rubles.
